

WORK SHEET

Module 3 Traffic Control Devices and Laws Right Of Way Principles

Name_____

Date_____

Score_____

Write your answers on a separate sheet of paper.

Definitions

1. Describe the "Yield" sign.
2. What does "Yield Right-of-Way" mean?

Describe the right of way principles in these situations:

1. At an intersection controlled by signs or signals
2. When entering a street from a driveway or alley
3. When arriving at a four(4) way or all-way stop
4. At an intersection not controlled by signs and signals
5. When turning left onto a roadway
6. When approaching a funeral or parade procession
7. At a T-type intersection
8. Entering or leaving a controlled access highway
9. When approaching a blind person
10. When approaching a railroad grade crossing

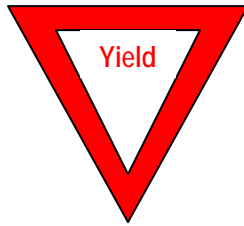

WORK SHEET Answer Key

Module 3 Traffic Control Devices and Laws Right of Way Principles

Definitions:

1. Red Triangle with White center

2. Right of Way is letting another vehicle or pedestrian pass through an intersection first.

Describe the right of way principles in these situations:

1. At either a "Yield" sign or signal (Flashing yellow light), slow down before entering the intersection and be prepared to stop if there are other vehicles or pedestrians
2. Drivers must stop and yield when exiting from a private driveway, parking lot, driveway or alley. After stopping before crossing the sidewalk, move forward to a point of clear visibility, yield and proceed when the way is clear.
3. At a 4-way or All-way stop, the first person to arrive should be the first person to go.
4. The first vehicle to arrive at the uncontrolled intersection should have the right of way. If two vehicles arrive at the same time, the vehicle on the left must yield to the vehicle on the right.
5. Always yield to oncoming traffic unless directed otherwise by a traffic-control device.
6. It is illegal to drive between or join vehicles in the formation unless you are authorized to do so by a police officer. Do not pass the procession in the right lane on a multi-lane highway unless the procession is in the farthest left lane.
You may not enter an intersection when the procession is proceeding through (regardless of the color of the traffic light) unless you can do so without crossing the path of the procession. Always give funeral processions the right of way.
7. "T" intersection, where you will have to turn either right or left. You must stop and/or yield to any drivers approaching from the other two directions.
8. Drivers shall yield the right of way to all vehicles approaching on the highway to be crossed or entered
9. The driver of a vehicle shall yield the right of way to any pedestrian that is a blind person walking with a white cane or seeing eye dog
10. The driver of a vehicle must yield the right of way to rail road trains and may not cross the tracks until it is safe to do so. Never drive around a crossing gate or barrier.
